

## Where Hazrat Noah's Ark landed after the flood

Hazrat Shah al-Hamid left Gawalior along with his friends and fakirs, and on the way, they found one beautiful woman and a man. And both of them embarrassed him and kissed his forehead. And they made a supplication for him. And they gave him the beggar's bowl.

And they told him to keep it with him always. If you want to feed anyone, then put some food in it and feed the people. If there are a lot of people, they will all eat until they are full of the stomach. Hazrat kissed the feet of Hazrat Adam and Bibi Eve and requested that they did not ignore his name in their supplications. And upon this, both of them vanished away from there. When the friends asked about them, he said that they were Prophet Adam and Bibi Eve.

Upon leaving Gawalior after some days of travel, Hazrat reached one mountain, where he met Hazrat Shibli there. The name of that mountain is Judi. On this mountain, the ark of the prophet Noah was stopped there. When Hazrat Shibli died there, Hazrat was given a funeral bath and observed the final funeral rites as per his advice. And he was buried on the top of the peak of the mountain there. And then he left from there, and from that place he reached Balvi City. At that time, the ruler of that place had welcomed him and his Fakir friends. And he treated all of them very well. And the ruler told him about the details of the illness of his son, and he told him that except for this son, there was no other son with him. If you cure him, then I will accept Islamic religion in this matter. He was given the order of his caliph, Hasan Rumi, to put water in the beggar's bowl. And spread that water on the body of the boy. Upon spraying the water on his body, all diseases were recovered.

At that time, the boy had become healthy and sat there. The ruler became very happy, recited the Islamic creed then and there, and became a Muslim person. The rulers have requested that Hazrat keep the boy with him in his service. But Shaik of Time did not accept his offer, so the ruler left the presence of Shaik of Time by kissing his foot towards his kingdom.
